chagall

Chagall's 'egg cup' curves are organic and graceful. The ultimate embodiment of feminine elegance. The soft curves of the seat offer you great comfort, while the vegan leather or fabric adds a pleasant feel to your seating experience. No wonder after all these years it's still a Joli classic, adding style to a wide range of projects.

The light structure rests on a firm foot. Besides the sled, spinning or x-base, there's now a new central base. The same seating experience, with the finish you love the most. With the palet of easy care colours – including the new, dark and cosy mokka or anthracite – as the icing on the cake.

curve

Organic lines and smooth edges. That's what defines Curve. The triangular table frame, with or without crossing legs, sets in motion a fascinating yet elegant play of shadows. Curve chairs match the concept, whilst maintaining their own identity. The slight curve of the seating and the flexible upper part give you great support. Even for long days around the table.

Curve happily taps into perfect imperfection. Recognisable, charming and inviting. At all times and in any room. To create even more opportunities, the Curve collection also has coffee tables in the family. That's what we call timeless design with an edge.

A black metal outdoor dining set consisting of a round table and four chairs, set on a grassy lawn under a large tree. A small bowl of food sits on the table. The scene is captured in a soft, natural light, suggesting a peaceful outdoor setting.

fizz
collection

fizz

Traditional rattan, taken to the next level with high-end Italian rope. Combined with slender, feminine lines and curves it gives the Fizz-collection its recognisable, modern look. The rope is totally weatherproof and dries extremely quickly. That makes for the perfect outdoor furniture, with the indoors charm and comfort you're looking for.

Add one of the sparkling tables, defined by their iconic foot. The ceramic table tops offer you maximal freedom in creating your own indoor or outdoor magic. The accompanying fizzy drinks are optional, but highly recommended.

Marguerite doesn't stop at tables and chairs. The lounge is the perfect multifunctional piece for your terrace. From lounge into sofa and back, within seconds. Add a round coffee table from the same collection to put your drink, your book or both. Enjoy!

mathias de ferm

Furniture, products, lighting and microarchitecture. That is the wide scope and creative eye of Antwerp designer Mathias De Ferm. By collaborating with renowned international brands, he puts his unique style on the world map. His work is characterized by a strong belief in the social relevance of design. A dining table, for instance, is not limited to its practical qualities. It's the social centrepiece of a home. Here people gather to eat, drink and interact. With De Ferm's warm-hearted aesthetic and durable materials as a guiding principle.

propeller

Powerful but meticulously conceived and designed. The Propeller table is inspired by aircraft propellers. Not just in its shapes and forms. Also in its energy and stability. The sleek, streamlined dining table (available in faux elyps, rectangular or elyps shape) exudes peace and strength. Giving you all the space you need. Literally and metaphorically.

wire

Refined and solid, suited for indoors and outdoors, but above all highly recognisable by its unique design. The Wire collection, designed by Mathias De Ferm, takes a simple idea to the next level. The tables and chairs are piece by piece handmade from fine, stainless steel wire. From bar stool and armchair to 3-seat and lounge.

The versatile finishes and the broad range of table tops make for a great match in any setting. The legs angled outwards give the entire piece an even lighter look.

cube 55

Cube 55 is the smallest family member. But remember: great things sometimes come in small packages. Cube 55 combines blocks of 55 x 55 cm to perfectly fit your needs. Standing or hanging: you're sure of a made-to-fit cupboard, that suits your daily life and your specific habits.

New is our standalone cabinet, Cube 55-O. This looks great from every point of view. The back plate, firm legs and rounded corners make it a great asset to your room. No wonder the 'o' refers to organic. Fenix® finish gives it a sleek and modern look. Making life easier, thanks to its scratch-free nature, not even showing fingerprints.

Deviating from traditional concepts to create new opportunities. That is exactly what the Collins side table does. Instead of a central leg, the tabletop rests seemingly casually from its side on the v-shaped base. The powder-coated aluminium is the perfect support for joyful get-togethers.

This lightweight side table is perfect for indoor and outdoor use. You choose between two different heights or combine both. Putting them aside? Simply slide the low Collins table under the higher version to make sure the right composition is always within reach.

fenix®

Recently, we added FENIX® to our material range. This matte finish avoids fingerprints because of its nano-technology surface and guarantees timeless style. A perfect choice for your cabinet.

FENIX® products are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product.

The advantages of FENIX®:

- Low light reflectivity
- Extremely matt surface
- Anti-fingerprint
- Thermal healing of superficial microscratches

And finally, as an additional great benefit FENIX® innovative materials for interior design are carbon neutral!
